

- 01 **Bluetooth®:** Allows up to 32' wireless range for easy programming and remote control
- 02 **Battery-Operated:** Includes two durable AA alkaline batteries for quicker setup
- 03 **Cycling Mode:** Optimal for interval drip system irrigation or for germinating plant seeds

## BTT BLUETOOTH® TAP TIMER

*Automatically irrigate gardens, plants, and flowers from a hose tap*

Take advantage of smartphone-controlled above-ground irrigation for easier access to the hose tap. Keep gardens, greenhouses, terraces, potted plants, flower beds, nurseries, and small lawn areas automatically and adequately watered with BTT, a Bluetooth enabled, battery-operated tap timer controlled via an iOS® or Android™ smartphone app.

BTT installs to a standard hose tap in minutes and batteries are included. Manage an unlimited number of controllers within a 32' range and avoid stepping on delicate plant material to access the hose tap. Bluetooth provides high-speed programming without the troublesome buttons and shadowy display of conventional tap timers. The cycling programming mode repeats irrigation continuously within a user-defined water window, perfect for drip systems or germinating seeds.

The Hunter BTT multi-language app is secure, easy to navigate, and features a visual dashboard that displays zone status, total watering time, and watering history. BTT is an affordable and convenient above-ground solution for supplemental irrigation.

# BTT FEATURES & SPECIFICATIONS

## Features

- Bluetooth enabled for easy wireless smartphone programming
- Manage an unlimited number of BTT controllers
- Multi-language mobile app
- Independent Timer and Cycling modes
- 1-second to 24-hour run times
- Suspend irrigation up to 99 days
- Manual push-button operation
- Automatic water shutoff after 1 hour
- Blinking LED low-battery alert
- Secure passcode protection
- Rugged screen filter
- Drip system ready with optional BTT-LOC
- Alkaline batteries included
- Warranty period: 2 years

## Operating Specifications

- Power: Requires two AA (1.5V) alkaline batteries (included)
- Flow rate: 4 to 15 GPM (48 to 900 GPH)
- Recommended pressure: 7 to 116 PSI
- Approvals: Plastic IPX6, Bluetooth 4.2 BLE, UL, cUL, FCC, CE, RCM

## App Specifications

- iOS 9.0 or above
- Android 4.4 or above
- Optimal communication distance: 10-16'
- Maximum communication distance: 32'

## Model

### BTT-200

Inlet diameter: 3/4"

Outlet diameter: 3/4"

Height: 6"

Width: 4 9/10"

Depth: 3"

### BTT-LOC (Optional)

Inlet diameter: 3/4"

Outlet diameter: 16-18 mm dripline

Height: 2 3/4"

Width: 1 1/4"

### Pressure Regulator (Optional)

Inlet diameter: 3/4"

Outlet diameter: 3/4"

Height: 3"

Width: 1 1/2"
